

PRIME ULTRA SYNTHETIC MOTOR OIL 0W-20, 5W-20, 5W-30

DESCRIPTION

Prime Ultra Synthetic Motor Oil is fully licensed to meet and exceed the latest automotive manufacturers' requirements of API SP and is a **100% full synthetic engine oil**. **Prime Ultra** advanced formula **0W-20, 5W-20 and 5W-30 multi-grade engine oils** are designed for vehicles operating under severe driving or extreme temperature conditions and are fully backwards compatible with API SN, SN-RC and SN Plus engine oils.

Prime Ultra 100% Synthetic Motor Oils provide outstanding protection for today's gasoline and gasoline/ethanol blended fuel engines, and provide enhanced protection for critical engine components, turbochargers, emission control systems and gasoline direct injection systems. **PRIME ULTRA 100% SYNTHETIC Motor Oils** can be used in virtually all gasoline engines including gasoline pick-up trucks and SUVs, domestic and foreign, and are fully compatible with all other synthetic and petroleum-based engine oils.

FEATURES

- Excellent protection from deposits at all operating temperatures
- Excellent turbo charger deposit control
- Excellent cold cranking capabilities
- Excellent protection against accelerated oil consumption
- Excellent protection against low speed pre-ignition (LSPI) and accelerated timing-chain wear in GDI/TGDI engines.

APPLICATIONS

Recommended for the following applications:

- Where API-SP, SN, SN-RC and SN Plus engine oils are required.
- Where ILSAC GF-6A, GF-6B and GF-5 engine oils are required.
- Dexos®1 Gen 2 approved.
- Where Ford M2C960-A1 (5W-20), M2C961-A1 (5W-30), M2C962-A1 (0W-20) are required
- Where Chrysler MS6395 engine oils are required.
- Asian OEM engines including Honda, Hyundai, Kia, Mazda and Toyota
